

# Application Review Process

## So you've submitted an application to the Appalachian Solar Finance Fund (SFF). Now what?!

- 1** Our team acknowledges receipt of your application and confirms your geographic and categorical eligibility for the program.
- 2** We work with you to assess your solar project's investment readiness, determine your threshold need for funding support, and help you to identify and secure appropriate financing for the remainder of your project.
- 3** The SFF Financial Review Advisor recommends an appropriate level and type of funding support for each eligible application.
- 4** The SFF Review Committee evaluates these recommendations and votes on funding support levels and contingencies for each eligible application.
- 5** We notify you of the Review Committee's decision.
- 6** You sign an MOU with the SFF that explains the required conditions and expected timeframe for funding disbursement.
- 7** You successfully complete the contingencies detailed in the MOU.
- 8** You sign a Sub-Award Agreement or Technical Assistance Services Agreement with the SFF.
- 9** The SFF releases funds to support your solar project!
- 10** We continue to work together to bring public interest and press attention to your solar project, and to gather data on your project's status and outcomes.

If you have any questions or want to know the status of your application, contact SFF Director Autumn Long at [autumn.long@appvoices.org](mailto:autumn.long@appvoices.org).
